

Covid 19

Whilst the NHS continues to work all day and night
To overcome this horrendous plight
As Covid 19, a virus the world must now endure
For it does not discriminate between rich or poor

It's a virus so deadly, it's infected the globe
The earth now covered with the sad sorrowful robe
For there's a panic of fear, which now fills the air
Causing people to worry, and begin to despair

Stay at home, save lives the government say
Many don't listen, for they go their own way
They don't heed the warning, and so it was so
When God warned the people, from so long ago

He told them that sin, destroys what is good
It deceives, and deludes and spreads to falsehood
Have faith in God's word and trust in His care
For He will protect through the darkest despair

Of course you can't see it, for it lurks deep within
A disease which is deadly, for its known as sin
Yet God loved His people, so a cure was sent
A remedy to restore, and relieve the torment

For those who repent, you know there's a hope
Trust in God's promise, then you'll know how to cope
God sent us a Saviour, so we could be free
Who gave up His life, For both you, and me

There's many will fret, about this crisis today
For we know it's a challenge in every way
Life as we know it, the long journey ahead
God will be with us for the perils we dread

Whatever the road, God will guide and help you
He'll strengthen you daily, to lead a way through
Even through those dark trials, He'll lighten the way
If you trust and believe, He'll stay with you each day

So don't worry about tomorrow, today is the day
For Salvation in Jesus just trust and obey
Don't be discouraged, for He'll answer through prayer
For He'll never abandon, always showing mercy and care.
