

Discovery

One of the greatest discoveries ever made
Lay down in the tombs, so as not to fade
Many spoke about treasures, of wonderful things
Deep in the Valley of the Kings

Have you made a discovery, significant to you
Perhaps of a relative you never knew
Yet there's a discovery, just follow the track
For what you discover, you won't want to turn back

There's an air of excitement, that would make anyone's day
So take your first step, for He is the way
When you, follow Jesus, and seek with your heart
You'll find and discover, your ready to start.

A journey where you'll discover eternal life
Away from the drudgery and misery of strife
Believe, have faith, then you will find
Your eyes will be opened and no longer blind

A transforming discovery, don't let it pass by.
Don't let tomorrow, leave you breathing a sigh
Seek Jesus, the Saviour then you will find
A new life's begun, for He's loving and kind

So, have you discovered Jesus? for today is that day
Don't leave it too late, if you want him to stay
Just open your heart, and let him come in
Repent and believe and He'll keep you from sin

For this is the greatest discovery of all
When you reach out your arms, then Jesus will call
He'll give you a peace and a gateway to glory
When you discover, this life changing story
